

Samer & Co Shipping

ITALY

Samer's history goes back to 1919 and has been operating under its current name since 1985. The company offers a broad range of services related to shipping and operates a terminal on the Riva Traiana in Trieste. The terminal can accommodate three RoRo vessels at once and has an open storage yard of 150,000 square metres. Samer operates 15 RT tractors of various models for RoRo operations, as well as four YT182s.

"We were looking for a special machine that combined comfort for the operator with real

strength for the special work we do. The double-stacking of containers for RoRo-operations works really well thanks to the RT223s: we can do it safely and save time. The driver's cabin is really well thought out and the special swivel seat is also a help for the driver for speeding up the operations. Finally, the tractors are really robust and easy to understand."

Samer's fleet of tractors was supplied by Vecar, a partner of our Italian distributor Manuport.
